Mercury® MerCruiser® | Mercury Marine

Mercury MerCruiser is world-renowned for creating innovations that provide boaters the best experiences on the water. From our pioneering sterndrive propulsion introduced at the Chicago Boat Show more than a half-century ago to today's joystick controls that give boaters the confidence and ability to pilot the boat of their dreams even under extreme conditions, Mercury MerCruiser is the undisputed leader in marine power and technology.

Mercury® MerCruiser® | Mercury Marine

The Mercury MerCruiser 6.2L offers exceptional fuel efficiency. Wide band oxygen sensors continuously monitor oxygen levels, which enables the engine control module to deliver precisely the correct amount of fuel. The result is fuel economy that stretches your boat's range and your dollar.

Mercury® MerCruiser® Inboards | Mercury Marine

Mercury's Engine Guardian continually monitors critical sensors for any sign of a problem and immediately takes action, while the water-cooled Cool Fuel delivery system on the 8.2L Inboard engine prevents vapor lock. Rugged construction, including stainless-steel exhaust, ensures long-term, hassle-free operation.

Mercury® MerCruiser® Inboards | Mercury Marine

MerCruiser Sterndrive or Inboard-Outboard Engines (IOs) A MerCruiser sterndrive is essentially a car or truck style engine mounted inside the boat, lower in the hull. The engine is then connected through the transom, or back of the boat, to an outdrive unit that hangs down below the boat's bottom.

Mercury Marine Outboard vs. MerCruiser Sterndrive Engines

Mercury® MerCruiser® 8.2L | Mercury Marine

Mercury Diesel. Mercury Diesel engines offer a sophisticated diesel-engine experience: Advanced turbocharging and injection technologies produce a powerband that's carefully calibrated for marine performance and outstanding economy.

Mercury Marine

SeaCore is a brand of sterndrive marine propulsion systems manufactured in the United States by MerCruiser. The SeaCore engine design utilizes materials, technologies, and systems, created specifically for Mercury Marine, to prevent galvanic corrosion within its engine, transom and drive.

Mercury Marine — Wikipedia

As an example, the Mercuriser 4.2 litre or the MD706 range of marine engines can easily take around 50 – 65 hours to completely recondition including checking the coolers and heat exchangers. Because of the amount of time required to repair these engines, a lot of boat owners and boatyards prefer to entrust the work to a specialised Mercuriser repairer such as the VM Diesel Specialist.

Mercuriser Parts — Mercuriser, Cummins & Mercury Marine

Mercury MerCruiser offers a range of gasoline engines with both angled tilt speakers (Sterndrives) and reverse gearboxes (Inboards) with high performance from 135 to 425 hp. All carburetor engines for convenience are equipped with an exclusive launch system TKS. You do not need any suction, no swap, no pre-fill fuel.

MerCruiser Service Manual Free Download PDF — Boat & Yacht

135 - 440 hp. Mercury® Remanufacturing is made up of unique products that offer value performance for your next repower. Based on the popular Mercury MerCruiser® line, these are fully remanufactured engines that are fitted with marine-grade performance valve train, pistons, induction system and (in some cases) marine headers to deliver factory reliability at an affordable price.

SELOC Marine maintenance and repair manuals offer the most comprehensive, authoritative information available for outboard, inboard, stern-drive and diesel engines, as well as personal watercraft. SELOC has been the leading source of how-to information for the marine industry since 1974. Designed and written to serve the needs of the professional mechanic, do-it-yourself boat enthusiast, instructor and student, these manuals are based on actual teardowns done by Chilton Marine's editors/authors in our on-site facility. Providing complete coverage on everything from basic maintenance to engine overhaul, every manual features: -Simple-to-follow, step-by-step, illustrated procedures -Hundreds of exploded drawings, photographs and tables -Troubleshooting sections, accurate specifications and wiring diagrams -Recognized and used by technical trade schools as well as the U.S. military Covers Alpha One Generation 2 units powered by GM 4-cylinder, V6 and V8 engines. Includes carbureted and fuel injected engines.

The aim of this book, with its superb step by step photographs and detailed diagrams is to enable every owner to understand the workings of an outboard motor (2 or 4 stroke) and be able to fix it with relative ease. It includes: an explanation of the different parts that make up the engine and how they interact; how fuel is transformed into propulsion; regular maintenance and repair worksheets to help even the most mechanically ignorant to work on their outboard engine with confidence; the most common causes of breakdown; troubleshooting tables to allow you to diagnose and fix the most common engine problems and advice on how to winterize your outboard in one short afternoon. After reading this book, your outboard will no longer be a potential bother to you but an ally for better boating.

The story of the ZR-1 Corvette and the high-performance LT5 engine is a fascinating tale of interest to every Corvette enthusiast. The author gives you an inside look at how the ZR-1 was born, what went into the design and manufacture of the LT5 engine, and why production was discontinued. THE HEART OF THE BEAST also discusses the exciting American and European debuts of the ZR-1, the numerous world records set by this potent Corvette, and the various aftermarket variations of the ZR-1.
