We Beat the Street Key Figures | SuperSummary

Read this excerpt from We Beat the Street. "If you're looking for the Seton Hall presentation, it's just beginning," the principal told them. She walked with the three boys to the library, then stood by the door, listening to the presentation herself for a few minutes. We're stuck, Sampson thought as the three of them found seats at a back table.

We Beat the Street - Chapter 14 - YouTube

We had to fight drugs and crime and hopelessness. We had to overcome obstacles like poverty and apathy and violence in our community. Individually we probably would not have succeeded, but together, we were able to make it through high school, college, and medical school. We are Dr. Rameck Hunt, Dr. Sampson Davis, and Dr. George Jenkins.

Three boys, who made a pact to stick together through the rough times in their impoverished Newark neighborhood, found the strength to work through their difficulties and complete high school, college, and medical school together.

The unusual and often stunning world of tramp art is revealed in an illustrated introduction to this unique art form, which was mostly created by itinerant artists and often exchanged for food during the Depression.

Follows the experiences of the authors, three friends who grew up in impoverished families in Newark, New Jersey, and who supported one another in their dreams of becoming doctors in spite of tremendous disadvantages.

\$20,000 to \$2 million in only three years—the greatest stock-picker you never heard of tells you how you can do it too Chris Camillo is not a stockbroker, financial analyst, or hedge fund manager. He is an ordinary person with a knack for identifying trends and discovering great investments hidden in everyday life. In early 2007, he invested \$20,000 in the stock market, and in three years it grew to just over \$2 million. With *Laughing at Wall Street*, you'll see: •How Facebook friends helped a young parent invest in the wildly successful children's show, *Chuggington*—and saw her stock values climb 50% •How an everyday trip to 7-Eleven alerted a teenager to short Snapple stock—and tripled his money in seven days •How \$1000 invested consecutively in Ugg's, True Religion jeans, and Crocs over five years grew to \$750,000 •How Michelle Obama caused J. Crew's stock to soar 186%, and Wall Street only caught up four months later! Engaging, narratively-driven, and without complicated financial analysis, Camillo's stock picking methodology proves that you do not need large sums of money or fancy market data to become a successful investor.

A riveting personal exploration of the healthcare crisis facing inner-city communities, written by an emergency room physician who grew up in the very neighborhood he is now serving Sampson Davis is best known as one of three friends from inner-city Newark who made a pact in high school to become doctors. Their book *The Pact* and their work through the Three Doctors Foundation have inspired countless young men and women to strive for goals they otherwise would not have dreamed they could attain. In this book, Dr. Davis looks at the healthcare crisis in the inner city from a rare perspective: as a doctor who works on the front line of emergency medical care in the community where he grew up, and as a member of that community who has faced the same challenges as the people he treats every day. He also offers invaluable practical advice for those living in such communities, where conditions like asthma, heart disease, stroke, obesity, and AIDS are disproportionately endemic. Dr. Davis's sister, a drug addict, died of AIDS; his brother is now paralyzed and confined to a wheelchair as a result of a bar fight; and he himself did time in juvenile detention—a wake-up call that changed his life. He recounts recognizing a young man who is brought to the E.R. with critical gunshot wounds as someone who was arrested with him when he was a teenager during a robbery gone bad; describes a patient whose case of sickle-cell anemia raises an ethical dilemma; and explains the difficulty he has convincing his landlord and friend, an older woman, to go to the hospital for much-needed treatment. With empathy and hard-earned wisdom, *Living and Dying in Brick City* presents an urgent picture of medical care in our cities. It is an important resource guide for anyone at risk, anyone close to those at risk, and anyone who cares about the fate of our cities. Praise for *Living and Dying in Brick City* "A pull-no-punches look at health care from a seldom-heard sector . . . Living and Dying isn't a sky-is-falling chronicle. It's a real, gutsy view of a city hospital."—*Essence* "Gripping . . . a prescription to help kids dream bigger than their circumstances, from someone who really knows."—"People "[Dr. Davis] is really a local hero. His story has inspired so many of our young people, and he's got his finger on the pulse of what is a challenge in Newark, and frankly all across America. . . . I think his book is going to make a big impact."—Cory Booker "Some memoirs are heartfelt, some are informative and some are even important. Few, however, are all three. . . . As rare as it is for a book to be heartfelt, well written and inspirational, it's even rarer for a critic to say that a book should be required reading. This ought to be included in high school curricula—for the kids in the suburbs who have no idea what life is like in the inner cities, and for the kids in the inner cities to know that there is a way out."—*The Star-Ledger* "Dramatic and powerful."—*New York Daily News* "This book just might save your life. Sampson Davis shares fascinating stories from the E.R. and addresses the inner-city health crisis. His book is an important investment in your most valuable resource: your health."—Suze Orman, author of *The Money Class*

Sylvia is shocked and confused when she is asked to be one of the first black students to attend Central High School, which is scheduled to be integrated in the fall of 1957, whether people like it or not. Before Sylvia makes her final decision, smoldering racial tension in the town ignites into flame. When the smoke clears, she sees clearly that nothing is going to stop the change from coming. It is up to her generation to make it happen, in as many different ways as there are colors in the world.

Traces the author's experiences as a mathematics wizard, author, inventor, hedge-fund manager, and card-counter who revealed casino-beating strategies, invented the first wearable computer, and launched a Wall Street revolution.

An exuberant celebration of dance and play in picture book form, based on Charlotte Caffey's joyful classic made famous by the Go-Go's. See the people walking down the street Fall in line just watching all their feet They don't know where they want to go But they're walking in time They got the beat... We Got the Beat is a children's picture book based on the hit song by the 1980s new wave group the Go-Go's. Consisting of five members, the all-female band rocked the nation with their charisma and musical genius. Their hit song "We Got the Beat" spent three weeks at #2 on the *Billboard* 100 and became their signature song. Says the *New York Times*: the Go-Go's "taught a new generation the power of the girl gang." With lyrics by Go-Go's member Charlotte Caffey and illustrations by Kaitlyn Shea O'Connor, this picture book tells the story of what it is like to live life dancing to the beat, while enjoying friends, nature, and the fun that surrounds you. We Got the Beat will make both parents and children get their groove on and show off their best dance moves. "Songs like 'We Got the Beat' were built with a timeless durability as solidly constructed as a Motown hit." --*New York Times*
